

Rimfire Ammunition Ballistics Table

Compiled by [Adam S. Gubar](#)

NOTE: Caliber is given in decimal fractions of an inch. Bullet Weight is given in grains. Muzzle Velocity (MV) and velocity at 100 yards (V@100) are given in feet-per-second. Muzzle Energy (ME) and energy at 100 yards (E@100) are given in foot-pounds. "MP" is the abbreviation used for momentum at the muzzle.
